PROFESSIONAL SUMMARY

Hands-on Meta and Google Ads media buyer with 5+ years running lead-generation campaigns for agencies and local businesses across healthcare, real estate, home services and e-commerce. Comfortable owning a multi-account portfolio independently and acting on the numbers without waiting to be told. I also build the GoHighLevel funnels and automations behind the ads, so spend turns into booked appointments rather than form fills, and I use AI tools (Higgsfield, GPT-based workflows) to move faster across every account.
